JUNE PACHUTA FARRIS, compiler and editor (Chicago, U.S.A.)

CURRENT BIBLIOGRAPHY

The *Current Bibliography* attempts to be the most complete and up-to-date international bibliography of recent Dostoevsky research published. It has been the intention of the compilers that the *Current Bibliography*, when used as a supplement to the preceding issues of the *IDS Bulletin* and *Dostoevsky Studies*, be as nearly inclusive as possible of all material published from 1970 to through the present year. It is our aim for the bibliography to eventually be exhaustive. Consequently, the latest year is usually the least represented and the earlier years become more and more complete as time goes by. In general, we can say that over a three to four year period, the entries for the first of these years will be nearly complete.

Every attempt has been made to provide full, clear citations, and a special effort has been made to keep together all citations by one author, disregarding the variations in spelling and transliteration which can occur when an author publishes in a variety of languages. When the citation of an author's name deviates considerably from its original form, the original spelling is given in brackets. Likewise, any additional information which is not a part of the citation itself, but which may provide clarification of the topic in relation to Dostoevsky is also given in brackets after the citation.

Readers are encouraged to forward items which have thus far escaped listing to the editor at the following address:
