Current Bibliography 2007

The *Current Bibliography* attempts to be the most complete and up-to-date international bibliography of recent Dostoevsky research published. It has been the intention of the compilers that the *Current Bibliography*, when used as a supplement to the bibliographies in the preceding issues of the *Bulletin of the International Dostoevsky Society* (v. 1-9, 1971-1979) and *Dostoevsky Studies* (v. 1-9, 1980-1988; new series, v. 1-6, 1993-1998 in 3v. and new series, v. 2-10, 1998-2006) be as nearly inclusive as possible of all material published from 1970 through the current year. (With some exceptions, book reviews, reviews of theatrical productions and brief newspaper articles have been omitted.) It is our aim for the bibliography to be exhaustive. Consequently, the latest year is usually the least represented and the earlier years become more and more complete as time passes. In general, we can say that over a three-to-four-year period, the entries for the first of these years will be nearly complete.

Every attempt has been made to provide full, clear citations, and a special effort has been made to keep together all citations by one author, disregarding the variations in spelling and transliteration which can occur when an author publishes in a variety of languages. Any additional information which is not a part of the citation itself, but which may provide clarification of the topic in relation to Dostoevsky, is given in brackets after the citation. Whenever possible, collections of essays have been fully analyzed, with individual citations provided for each article in the volume.

Readers are encouraged to forward items which have thus far escaped listing to the editor at the following address:

June Pachuta Farris
Bibliographer for Slavic and East European Studies
The Joseph Regenstein Library
